"There's Something About An Island . . ."

The most wonderful thing about BLOCK ISLAND is that it has preserved its original *New England atmosphere*. Outwardly, it is little changed since the early part of this century. We like it that way. Naturally, creature comforts have kept pace with the times, but the buildings, the rustic background remain the same. All the things that have made this Island a favorite RESORT for so many are still here: *unpolluted air*; the *clean ocean*; the *sandy beaches*; the miles of shoreline for *surf fishing*; the quiet, green hills; the *colorful birdlife*; the two *fine harbors*; . . . The residents like to share this *uniqueness*, which they have succeeded in preserving, with the Island's visitors.

Sooner or later you'll want to try at least one of the types of *fishing*. You will find *rustic lakes* where bass, pickerel and perch are plen-

tiful. *Surfcasting* is popular and the Island is noted for its World's Record catches of *striped bass*. Party boats can be obtained for off shore fishing.—*tuna, blues, bottom fish*. Then there are the spectacular *migrations* of birds for which the Island is so justly famous which occur in the Spring and the Fall.

You may enjoy the varying types of accommodations offering real *YANKEE hospitality* on BLOCK ISLAND where welcome is the word. There are fine hotels and rooming houses to fit almost every budget and family group; superb food is served in excellent restaurants and hotels; and seasonal stays may be arranged in guest houses, housekeeping apartments and in *cottages*.
