MEASURER'S REPORT

For The Year 1978

The year began with 613 active certificates on file. The Measurer processed 96 new certificates and 25 revisions to still-active measurements. At year end, the active file contains 580 valid certificates.

All active ratings, including all the measured data, are stored on our disc-pack at the Greene Plastics computer facility. Mrs. Rabe is continuing to provide programming support.

Mr. Lewis E. Linzell was removed from the roster of measurers, at his own request. The roster now numbers 16.

The Measurer and Mr. Norman Rabe have taken an active role in bringing the Performance Handicap Racing Fleet (PHRF) handicapping system to this area, serving on the ECYRA PHRF Committee as well as on the Off Soundings Club's PHRF Committee. The Club has joined the Pacific Northwest PHRF Fleet and receives data from that organization. PHRF ratings were used in the 1978 Race Series in the Cruising Canvas Class and the "C" Classes.

Respectfully submitted,

Richard H. Roberts
Chief Measurer
