

# OFF SOUNDINGS CLUB

## Important EMAIL Notice to Members

We think we can save several thousand dollars a year in printing and mailing costs, and, at the same time, actually improve our communications with you by better using email and our website. To do this we need your help, and probably a little of your patience.

About 80%, 380 of our 477 members have provided us with their email addresses. During the year some members are changing their email addresses and sometimes we are not notified until our annual dues mailing and normal update of member info. Waiting this long to tell us risks missing out on important information during the year.

We have recently completed a test of how valid the addresses are in our email database. This test revealed that 46 of you have invalid email addresses in our data base. If you are one of these members there will be a **RED CARD** in this package advising you of this and asking that you send us your correct address. Those of you that have not advised us of your email address will also receive a red card. If you do have an email address please advise us.

You may update your email address at anytime by sending an email to our webmaster, Gerry Keeler at [oscwebmaster@gmail.com](mailto:oscwebmaster@gmail.com), or for now, simply indicate your correct email address on the card provided. See below. Remember, almost anything you need to know is listed on our website [www.offsoundings.org](http://www.offsoundings.org) and you can contact Gerry by email by simply clicking on his name on the website's opening page. If he can't answer your question he will forward your email to the OSC officer or committee chairperson who can.

Finally, we need some information from you to help guide us through the first few months of this project. We want to avoid as many problems as we can.

**Enclosed in this package is a preaddressed postcard, postage prepaid, with your return address so we can identify you. On the reverse side is a survey consisting of several questions. Please circle the appropriate answer and mail it back.**

Thanks
