43 Joralemon Street
Brooklyn Heights, NY 11201

Dear Frank,

Thank you for the time you have taken to work out the details of our visit to Shelter Island Yacht Club in September. We heartily accept your kind invitation, and look forward to the fine hospitality of your club.

We agree that Off Soundings should reimburse SIYC for the various services which are extended to us. The per drink charge of regular bar prices less 40% is an equitable solution for the need of your club for a policy that can be applied to all groups. While this would reflect an increase of over \$2,600 in our liquor charges, this would be offset by the absence of the Land & Service charge which last year was \$2,295. SIYC will also receive additional revenue by charging \$15 per boat per day to OSC members using moorings and launch service in Deering Harbor. Your idea of having 3 or 4 SIYC staff at the bar to determine ages of those in question is fine with us, and we are willing to pay the suggested cost of \$35 per person.

Attached is a projected estimate of charges for 1989 compared with actual expenses for 1988. If you agree with this, please let me know. I'd also appreciate knowing who you'd like us to work with in ironing out the many details necessary to make this function the success it has always been.

Very truly yours,

F. B. George Hohenstein
Commodore
