Measurer's Report

Measurement data forms (Rev 2000) have been printed and, along with an updated "Notice to Measurers," forwarded to all measurers. A line has been added to the headfoil designation, for roller furling headsail.

As a part of our winter review of the minimum equipment and accommodation standard, many data forms were updated to note roller furling headsails. We are now in a position if we wish, to incorporate a credit for roller furling headsails, for example in the cruising canvas class.

Submitted,

Norm Rabe
