MEASURER  
60 Dart Street  
New London, Conn. 06320

### MEASURER'S REPORT

For The Year 1979

The year began with 580 active certificates on file. The Measurer processed 133 new certificates and 20 revisions to still-active measurements. At year end, the active file contained 626 valid certificates.

All active ratings, including all the measured data, are stored on our disc-pack at the Greene Plastics computer facility. Mrs. Rabe continues to provide programming support.

Mr. John B. Lawson was removed from the roster of measurers, at his own request. The roster now numbers 15.

The Measurer and Mr. Norman Rabe have actively supported the Performance Handicapping Racing Fleet (PHRF) handicapping system in our area, serving on the Club's PHRF Committee as well as on the PHRF-LIS Handicappers Council -- Mr. Rabe as Chief Handicapper. The Club is a member of the Pacific Northwest PHRF Fleet and receives data from that group. PHRF numbers were used in the 1979 Spring and Fall Race Series for the Cruising Canvas Class and for the "C" Classes.

Respectfully submitted,

Richard H. Roberts  
Chief Measurer
