- *Breaking series ties*, the scoring software requests review of each tie and will do it automatically for two boats, if requested. Ties of more than two boats must be broken manually. The standard process is:

First level, list the scores for all boats in the tie in order low to high. first lowest score wins.

Second level, best result in the most recent race wins (could be the first race, if so stated in the sailing instruction: all ties would then be manually broken within the system).

Suggest that in the event of a trophy tie resulting from a scoring penalty or letter score that the boat without a penalty wins.

- *1 point or 3/4 point for first?*
- *One-race weekends* will be scored on low point with any ties decided on best corrected time.
- *Series trophies*, do we want to award trophies to boats that don't actually sail in or complete both races? That could happen with low point scoring. Probably not. In that case the SIs would state that although scores will remain the same trophies will be awarded to the lowest scoring boats with no letter scores other than SCP or RDG, except that when there is a tie the boat with no letter score will receive
